

REMARKS

In the application claims 1-7, 9-16, 18-21, 23-32, and 34-36 remain pending. Claims 35 and 36 have been added by amendment and find their support in the application, figures, and claims as originally filed. No new matter has been added.

In the Office Action of September 9, 2004, the specification was objected to for containing minor informalities. The specification has been amended to remove these informalities. Believing that the amendment cures the noted informalities, it is respectfully requested that the objection to the specification be withdrawn.

In the application claims 8, 17, 22, and 33 have been canceled. Believing that this amendment cures the rejection under 35 U.S.C. § 112, it is respectfully requested that the rejection be withdrawn.

The pending, originally filed claims have been indicated to contain allowable subject matter. A terminal disclaimer is being filed concurrently herewith to remove the double patenting rejection. It is believed that added claims 35 and 36 are also allowable for one or more of the reasons set forth in the Office Action of September 9, 2004.

CONCLUSION

It is respectfully submitted that the application is in good and proper form for allowance. Such action of the part of the Examiner is respectfully requested. Should it be determined, however, that a telephone conference would expedite the prosecution of the subject application, the Examiner is respectfully requested to contact the attorney undersigned.

While it is not believed that any fees are due, the Commissioner is authorized to charge any fee deficiency to deposit account 50-2428 in the name of Greenberg Traurig.

Respectfully Submitted;
